

WHY OUR RECOMMENDATIONS TO GOVERNMENT ON THE COVID-19 SOE ARE **IMPORTANT:**

REGULAR PRESS BRIEFINGS

Resuming the regular press briefings can ensure a consistent flow of information going out to the public regarding the State of Emergency (SOE).

PUBLISH SOE PROCUREMENT INFO

Publishing SOE procurement tenders, bids and contracts on official government information channels can ensure the integrity of emergency procurement.

PUBLISH DONATION REGISTRY

Publishing an online registry of external donations to COVID-19 SOE response operations ensures that citizens are aware of how much money is at the government's disposal.

COORDINATE RELEASE OF SOE INFO

Restricting the publication or release of official government information to official channels can ensure consistency of information as well as combat misinterpretation and rumour mongering.

CLARIFY INTERNAL SOE PROCESSES

NOC-19 publicly outlining their internal processes can ensure that potential violations of these processes can be more easily identifiable.
